

Donations of Art Policy Ignacio Community Library

Works of art may be donated to the Ignacio Community Library. The considerations and criteria defined in the Seasonal Art Exhibition Policy will be applied to individual works of art that may be donated. The Library retains the right to accept or reject any work of art for the Library. Donated art becomes the property of Ignacio Community Library, which has the authority on nature, location and retention. A good effort will be made to keep donated art in the library as intended by the donor, however priority is given to local art involved in seasonal exhibitions. All expenses involved with shipping, maintaining and special display needs of the art are expected and to be arranged by the donor.
