## 1,000 Books Before Kindergarten

Thanks to a grant from the Colorado State Library we have a program that is designed for children ages 0-5. Upon enrolling in the program, families will receive a packet with tips to help their child meet the goal and children will receive prizes as they turn in their reading logs on the way to their 1,000 books. Sign up next time you're in the Library! Studies have shown that families who start reading aloud to their children at birth help to strengthen their language skills and build their vocabulary – two important tools for beginning to learn to read when they enter kindergarten!

## Did You Know?
