This month's book is

**We know there's not much you can do at the library or some of your favorite places since the virus, but we know a few fun things you can do locally!**

- The Alpine Slide at Purgatory: "Feel the fresh mountain air as you speed down the track, or take a leisurely ride and enjoy the spectacular views for more than a half-mile descent. Purgatory's legendary alpine slide is fun for the whole family. Riders must be at least 3 years old and 36" tall to ride with an adult. Riders must be at least 6 years old and 48" tall to ride alone."
- Hike to Ice Lakes Basin: "Ice Lakes trail, 9 miles, has two common destinations, lower and upper. The upper basin is surrounded by awesome peaks. Vermillion, Fuller, Pilot Knob and Golden Horn are climbed from this basin. Amazing blue/green lakes, late season wildflowers, moderately strenuous hike to creek falls and waterfalls too."
- The Animas River Trail: "A beautiful trail that changes in scenery as you walk along the river and gives you the occasion to enjoy what Durango has best to offer. Located near the remote wilderness of the San Juan National Forest, the Animas River Trail is a rail-trail that runs for just over nine miles along the scenic Animas River, occasionally following the Durango and Silverton Narrow Gauge Railroad corridor. The trail is lined with cottonwoods, ponderosa pine, spruce, and aspen, which, when the temperatures rise, cool the asphalt, gravel, and concrete-surfaced trail. You'll find plenty of shade and sunshine along this winding trail."

## Fact Checking

"When misinformation obscures the truth and readers don't know what to trust, Snopes.com's fact checking and original, investigative reporting lights the way to evidence-based and contextualized analysis. We always document our sources so readers are empowered to do independent research and make up their own minds.

Snopes got its start in 1994, investigating urban legends, hoaxes, and folklore. Founder David Mikkelsen, later joined by his wife, was publishing online before most people were connected to the internet. As demand for reliable fact checks grew, so did Snopes. Now it's the oldest and largest fact-checking site online, widely regarded by journalists, folklorists, and readers as an invaluable research companion.

Snopes.com is an independent publication owned by Snopes Media Group."
